

Our Veterinary Innovations

Science That Shields. Care That Heals
CattleShield | EquiShield | VetShield

Introduction

Aussan Laboratories India Pvt. Ltd., a Subsidiary of **Aussan Laboratories Australia**, is a distinguished name in the field of natural and healthy solutions for the veterinary sector. As a proud Australian manufacturer, we are committed to delivering non-toxic, people & animal safe, and environmentally responsible hygiene solutions.

With a strong global presence, we collaborate closely with dairy producers, goshala, cattle hospitals, and cattle owners to enhance livestock health while improving the quality and value of produce. Our team of national and international experts continually embraces innovation to implement solutions that create a positive and lasting impact on society.

At Aussan, Animal Welfare Comes Before Business. Our priority is Cow protection, comfort, and well-being, with a dedicated focus on reducing discomfort and providing the best possible care for cattles.
